## HOW TO USE THIS BOOK

Like the other Books of Random Tables, The Book of Random Tables: Post-Apocalyptic 2 helps game masters cut down on preparation time and have more fun at the gaming table.

This is a resource book for tabletop role-playing games set in a post-apocalyptic near future, inspired by worlds like Mad Max, The Road Warrior, World Gone Wild, The Book of Eli, The Blood of Heroes, and more.

All the random tables in this book use D100 rolls, meaning percentile dice are used to determine results. Below is a breakdown of the sections and random tables.

The first section is Radio Broadcasts. Give your game an eerie feel by adding mysterious radio broadcasts for your players to discover.

The Encounters & Weather section provides game masters with extra flexibility. The encounters add excellent complications to existing campaigns or can be used as seeds for new ones. Post-apocalyptic weather is always a great way to set the tone for campaigns.

Next is Makeshift Weapons. In the wasteland, survivors fashion weapons out of anything. This table ensures game masters have creative improvised weapons on hand.

No one is completely healthy in the apocalypse. Radiation, poor hygiene, and more plague survivors, and that's where the Symptoms table comes in. Quick and easy, this table lets GMs add a touch of realism.

The following section contains 600 NPCs. Non-player characters make role-playing games come alive. These NPCs have names, weapons, armor or gear, and items.

If your game relies on Mad Max-like cars, then the 400 car parts in the Car Parts section are a necessity.

In the Names section, game masters will find 400 names perfect for wasteland wanderers. The names are a combination of surnames, nicknames, and first and last names.

The last section is a scavenger's paradise: one thousand items that characters can find in the rubble of the old world. These items range from food to tools, weapons to clothing, and plenty of junk to spark players' imaginations.

The long, desolate road stretches before you, and the wasteland has claimed nearly as many victims as the bombs. Prepare yourself, because the white line nightmare is upon you.
